PROFESSIONAL SUMMARY

Frontend Engineer with **5+ years of experience** specializing in **React.js, TypeScript, large-scale application modernization, and code quality improvements**. Proven expertise in migrating legacy React applications to modern architectures, improving test coverage, and mentoring junior developers. Strong experience working across multiple teams on enterprise-scale applications.

WORK EXPERIENCE

Accenture **September 2024 - Present**

Packaged App Development Analyst *Chennai, Tamilnadu*

- Collaborating across **multiple cross-functional teams** to modernize and stabilize a **micro-frontend based architecture**.
- **Migration from React 16 to React 18.2**, ensuring performance improvements and backward compatibility .
- Migrated legacy **class-based components to functional components using React Hooks** across **32 repositories**, improving maintainability and developer productivity.
- Converted unit tests from **Enzyme to Jest and React Testing Library (RTL)**, aligning the application with modern testing practices.
- Introduced unit test coverage from **0%**, writing test cases to ensure all repositories met the **SonarQube quality gate (60% coverage)**
- Fixed **SonarQube bugs** and resolved **Critical and Major code smells**, improving overall code quality and long-term maintainability.
- Performed regular **code reviews**, enforcing best practices and quality standards.
- Mentored and managed **junior developers**, including task assignment, technical guidance, and issue resolution.
- **Tech Stack:** ReactJS, JavaScript, TypeScript, Postgresql, Postman, Figma, MaterialUI, Bootstrap.

Infosys Limited **March 2022 - September 2024**

Associate Consultant *Chennai, Tamilnadu*

- Developed frontend applications using **React.js** and **TypeScript**. Utilized **Bootstrap** and **MaterialUI** for responsive design and styling.
- Implemented unit testing with **React Testing Library (RTL)** and **Jest** to ensure code quality.
- Conducted code analysis using **SonarQube** to identify bugs, code smells, and duplications. Improved **code coverage up to 85%**.
- Built RESTful APIs with **Node.js** for seamless data interaction.
- Managed database operations with **PostgreSQL**, employing **Knex** and **Objection.js** for efficient querying.
- **Tech Stack:** ReactJS, NodeJS, JavaScript, TypeScript, Postgresql, Postman, Figma, MaterialUI, Bootstrap.

Kloudone Pvt Ltd **October 2020 - March 2022**

Software Developer *Chennai, Tamilnadu*

- Developed and maintained web applications using **React Js, Javascript, Ant Design**.
- Build a feature **assessment summary**. Quiz creation and grading answers flow and **custom reports** on all key training metrics. Easy access, customized and automated reports.
- Implemented **Single Sign-On (SSO) using Keycloak** for secure authentication.
- **Tech Stack:** ReactJS, JavaScript, AntDesign, Figma, Keycloak.

PERSONAL PROJECTS

ChatHub Connect | Github | Live

- Developed a real-time chat application with features including authentication, authorization, single chat, group chat, user search, and notifications.
- Implemented authentication and authorization functionalities with **JWT**, integrated real-time messaging using **Socket.IO**, and designed UI components with **Chakra UI**.
- Successfully created a functional chat application with a seamless user experience.
- **Tech Stack:** ReactJS, NodeJS, MongoDB, Express, JWT, Socket.IO, Chakra UI.

Github Finder | Github | Live

- Built a ReactJS application for searching GitHub users and retrieving information such as their latest repositories, followers, and followings.
- Developed search functionality to fetch GitHub user data using the **GitHub API**, and designed the user interface using **TailwindCSS**.
- Created a user-friendly application for exploring GitHub profiles and repositories efficiently.
- **Tech Stack:** ReactJS, JavaScript, TailwindCSS.

Hulu App Clone | Github | Live

- Implemented fetching and displaying movie data, designed responsive UI components using **TailwindCSS**, and optimized the application for performance with **NextJS**.
- Developed a visually appealing clone of the Hulu app with comprehensive movie details and smooth navigation.
- **Tech Stack:** NextJS, JavaScript, TailwindCSS.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, TypeScript, React-Redux, Next.js
Backend: Node.js, Express.js
Testing: Jest, React Testing Library(RTL)
Databases: PostgreSQL, MongoDB
UI Libraries: Material UI, Chakra UI, Ant Design, Tailwind CSS, Bootstrap
Tools: Git, GitHub, Bitbucket, SonarQube, Postman, Jira, VS Code, Figma

EDUCATION

C Abdul Hakeen College of Engineering and Technology **Ranipet, Tamilnadu**
BE - Computer Science Engineering *2016 - 2020*
